C.a.d. in Industry

Adding a new dimension to tolerance 134
An inexpensive graphics terminal 281
ANA shipbuilding system 278
Building design aid 277
CAD Centre in Europe 63
Computer analysis calms bad vibes 277
Computer-aided redesign of a cast component 198
Design Office Consortium meeting 135
Design system finds many uses 64
Designs to order 277
Display costs on view 134
Fabric design 136
Finite element programs in geotechnical problems 133
France invests in c.a.d. 277
Getting the balance right 133
Highway design 199
Integrating the integrated 63
Keeping up the pressure 63
Lloyd's Register 134
Ship design 135
Remote plotting at full speed 64

CADMAC – interactive design system 64
Cast components, c.a.d. of 198
Chemical processes 29
Chemical process design 137, 229
Circuits and systems 20, 55, 275
Compressor design 163
COMPUTAKNIT – fabric design 136
C.a.d. and c.a.m. 273
Computer-aided drafting 64, 203
Computer graphics 140

Conferences

CAD 74 – International conference and exhibition on computers in engineering and building design 49
CAM-i International seminar on c.a.d. and c.a.m. 273
circuits and systems, 1975 international symposium 275
circuit theory, Summary school 55
Computer graphics and interactive techniques 54
Design automation conference, 12th 272
Design automation workshop, 11th 56
Machine tool design and research conference, the 15th international 130
Optimization in action 276
Workshop – c.a.d. for digital systems and computers 53
Workshop on general-purpose c.a.d. systems 129
Workshop on graphics 131

Conic lofting tile 237
Control systems design 137
Curve definition 89, 243

D

Data analysis package 265
Data communications (back cover January)
Database management (back cover July)
Data-structures (back cover October)

Design automation 56, 272
Design Office Consortium 135
Design theory 207
Diesel engine 83
Digital computer operation 62
Digital filter design 151
Digital systems 53
Digitizer 66
Dimensional tolerancing 134
Directed graph design 107
Disc drive 66
Display and data systems 124, 134
Displays Group BCS 134
Drawing Office 43
Dynamic programming 255

E

Electrical networks 214
Electrostatic printer/plotter 65
Engineering and building design 49, 160
Environmental design programs 123

F

Fabric design 136, 207
FASTPLOT – graph-plotting package
Finite elements in geotechnics 133
FORAN system, ship design 135
Fourier analyser 277

G

Gas exchange 83
General-purpose c.a.d. 129
Geometric design 208
Geotechnical problem analysis 133
GINO-F, graphics 212
Graph theory 157
Graphics 15, 107, 131

H

Heat exchangers 43
Hidden surface elimination 171
Highway design 199, 255
Huli production, shipbuilding system 278

I

Induction unit water circuits 133
Integrated circuit aid 63
Integrated system for highway design 199
Interactive computer graphics 15
Interactive techniques 65

L

Light Pen
Applying structured programming to c.a.d. (back cover April)
Computer-aided design – a positive technological and social aid (back cover October)
Significance of data communications protocols (back cover January)
Where next for data-structures? (back cover July)

K

K-curves 67
Kinematic design 250
Knitted fabric 207

L

Layout 2
Layout generation 112
Linear systems analysis 137
Linkage balancing and analysis 70, 142
Linkage mechanism design 250
Linkages 15
Lloyd's Register 134
Logic systems 101
LP-search 160

M

Machine tool design and research 130
Matrix eigenproblems 62
Mechanical/electrical transducer design 277
MICADO – French centre for c.a.d. 278
Microwave circuits 179
Minicomputer c.a.d. 262
Minimax optimization 221
MINNIE – circuit design package 262
Multiparametric and multicriterial problems 160

N

NASTRAN analysis package 134, 145
Network, Star 283
Networks, electrical 214
Networks, water distribution design 63
Numerical control 137

O

Optimization 151, 214, 221

P

Paper tape reader 138
Penalty function approach 221
Point-plotter 138
Power press mechanism design 250
POLYSURF: design and component manufacture 67
Process computer 265
Process design system 93, 229
Process technology 137
Production 101
Programs directory 126

R

RODSIM – geotechnical software 133
Room-planner 11
Route location 255

S

Safety 140
School design 112
Shape design 198
Shipbuilding design system 135, 278
Site layout 2
Social aid (back cover July)

Software
CONCEPT (Computation Online of Networks of Chemical Engineering Process Technology) 137
Environmental Advisory Service 137
GNC (Graphical Numerical Control) 137
ICOS (control system design aid) 137
K-CURVES 137
REFINE 137
STABLIN/(Linear system analysis) 137

Star network 283
STRICTA – water balance program 133
Structural analysis 277
Structured programming (back cover April)
Surface description package, CONSURF 237
SYSFAP, civil engineering system 200
Systems design 62

T

Techniques in c.a.d. 124
Terminals 125

Titles
Aiding the Drawing Office to detail plate heat exchangers, Cocks, A. M. et al 43
An analogue computer aid for the kinematic design of a low impact velocity power press mechanism, Rees-Jones, J. 250
An animation facility for computer-aided design, Ricci, A. 75
Another look at computer-aided circuit analysis, Ingram, D. G. W. 20
Biarc curves, Bolton, K. M. 89
C.a.d. procedure for radial and mixed flow compressors, Wallace, F. J. et al 163
Computer art: recent trends, Reffin Smith, B. 225
Computer assistance for low volume production of logic systems, Evans, A. H. 101
Computer graphics for directed graph design methods, Hargreaves, J. 107
Computer program to predict the gas exchange process of a diesel engine, Hallam, A. J. et al 83
Computer simulation model for the design of airport terminal buildings, Laing, L. W. W. 37
CONSURF. Part two: description of the algorithms, Ball, A. A. 237
Data-structure for the elimination of hidden surfaces by patch subdivision, Griffiths, J. G. 171
Design and implementation of an interactive data analysis package for a process computer, Batey, D. J. et al 265
Design of recursive digital filters with optimized word length coefficients, Bandler, J. W. et al 151
DIS – Design Integrated System, Lutcha, J. et al 229
DOCPRO – a dynamic simulator for chemical processes, Hughes, R. et al 29
Dynamic analysis and balancing of linkages with interactive computer graphics, Smith, M. R. 15
Flexibility in a minicomputer c.a.d. system: a new approach, Apperley, M. et al 262
Generation of all possible trees of a graph in independent groups, Hashemian, R. et al 157
Graphical interactive room-planner, Anderson, S. E. 11
Housing site layout system, Bijl, A. et al 2
ICON: the interactive creation of NASTRAN data. A system descritpion, Armit, A. P. et al 145
Interactive computing applied to linkage balancing, Oldham, K. 142
Interactive computer programs for the analysis of linear microwave circuits, Marchent, B. G. 179
Intrinsic method for curve definition, Adams, J. A. 243
Method of LP-search for the optimization of multiparametric and multicriterial problems in engineering design, Artobolevski, I. I. et al 160
Optimal highway route location, Nicholson, A. J. et al 255
PBDS – Process Basic Design System, Nishihara, K. et al 93
Performance optimization of nonlinear electrical networks, Khidir, E. O. 214
Practical application of a penalty function approach to constrained minimax optimization, Srinivasan, T. V. et al 221
Program for the kinematic analysis of three-dimensional cascaded linkage chains, Wolberg, J. R. et al 70
SPACES – an integrated suite, Th'ng, R. et al 112

Tolerancing, dimensional 134
Torsional vibration analysis, TORVAP 283
Transmission system, TORVAP 283
